

## Develop Skills for Math Mastery

ExploreLearning math solutions equip your students with the skills and confidence to take on foundational math topics, like math fact fluency and fractions, as well as higher-level concepts, like algebra and geometry, to achieve ongoing math success.

### **R** Reflex **Grades 2-6**

#### Solve the math fact fluency problem with Reflex

**Reflex** makes it easy for students to become math fact fluent and get ready for more complex math. Full of games that students love, Reflex helps all students master their math facts and gain the confidence to keep learning. And because it is fully adaptive, students get the individualized instruction they need to be successful.

### **F** Frax **Grades 3-5**

#### Make fractions finally make sense with Frax

**Frax** uses the latest research-based instructional methods to create a more effective, more engaging way for students to learn fractions. Fun challenges, personalized instruction, and motivating rewards help all students build mastery—all while exploring the galaxy with fractions!

### **G** Gizmos **Grades 3-12**

#### Power inquiry and understanding with Gizmos

**Gizmos** are award-winning, interactive simulations that bring research-proven instructional strategies to life and make learning fun. Students use Gizmos to interact with and explore hundreds of math topics, ranging from fractions to trigonometry.
