The most effective math fact fluency solution

Reflex builds math fact fluency for grades 2+

Across multiple grades, standardized tests, and assessments—students who use Reflex are scoring higher and growing faster than their peers.

Adaptive and individualized. Every student can succeed in becoming math fact fluent.

Data-driven. Powerful reports help educators monitor and support student progress.

Anytime, anywhere. Students can use Reflex anywhere there's an Internet connection.

Game-based. Fun challenges and frequent rewards keep students coming back.

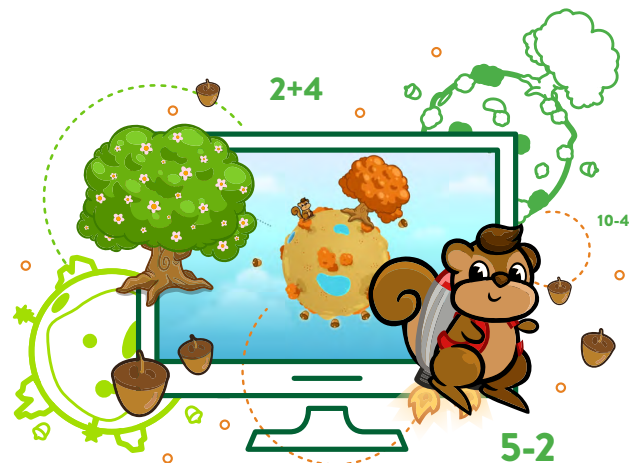

Effective. Studies show statistically significant, positive results for Reflex users.

ExploreLearning Reflex is the most effective system for mastering basic facts in addition, subtraction, multiplication, and division. Full of games that students love, Reflex helps students at every level quickly gain math fact fluency and confidence. And educators and parents love the powerful tools that help monitor progress and celebrate success.

Math fact fluency is foundational to learning math and is a significant predictor of student math performance.

Using fact families and delivering the right facts at the right time, Reflex meets each student where they are. The games require increasingly complex, fast-paced answers to math facts, ensuring students reach automaticity. And their efforts pay off with Reflex. They learn that if they put in the work, they really can succeed in math.

Reflex is fun... and it works!

Join Crabby, Coach Penny, and their friends on an amazing island adventure where mastering your math facts has its rewards!

Fluency checks and coaching

Reflex features fully adaptive, individualized instruction throughout. Each session begins with a quick fluency check and just-in-time coaching that prepares students for effective and efficient math fact practice.

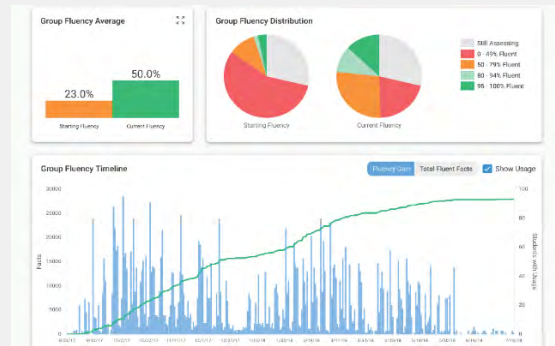

Rewards for effort and progress

As students answer math facts, they earn tokens to spend on accessorizing their avatar or decorating their Progress Tree. And as they progress, they unlock certificates that celebrate key milestones.

Fun, challenging games

Through a variety of exciting, fast-paced games that require answering math facts to succeed, students quickly build fluency in Reflex. And with 10 (and counting) games to unlock, there's something for everyone.

Effective student outcomes

Reflex really works! Students who use it are scoring higher and growing faster than their peers. Intuitive and powerful reporting make it simple to monitor student usage and progress and to celebrate student success.
