## Math Vocabulary

You might see some of these context clues in word problems. **REMEMBER- these words won't tell you how to solve the problem!** Use ALL of your math skills to do that!

### Addition Words

add  
all  
altogether or all together  
both  
combine  
gain  
how much  
in all  
increase  
more than  
perimeter  
plus  
sum  
together  
total  
total number

### Subtraction Words

decrease  
deduct  
difference  
fewer than  
give away  
left or leftover  
less  
less than  
lost or lose  
minus  
reduce  
remaining  
subtract  
take away

### Fraction Words

convert  
denominator  
dividend  
divisor  
equivalent  
fraction  
improper  
lowest terms  
mixed  
numerator  
parts  
parts of a whole  
proper  
reduce  
simplify  
whole

### Multiplication Words

area  
by  
double  
each group  
factor  
groups of  
multiple  
multiply  
of  
product  
times  
triple  
twice

### Division Words

as much  
average  
cut up  
divide  
goes into  
half  
how many times  
out of  
parts  
per  
percent  
quotient  
separated
